

Joint Statement
MVWSD and MVEA Complete Negotiations
March 12, 2024

The Mountain View Whisman School District and the Mountain View Educators Association completed successor negotiations and reached a comprehensive Tentative Agreement resolving ALL outstanding issues.

Highlights include a new three year agreement term; salary schedule increases for the next three years (2024-2025, 2025-2026 and 2026-2027); and limited reopens the second year of the contract. The parties also lowered certain class sizes, improved the Hours, Leaves and Transfer articles, and improved evaluation and professional growth procedures.

More details will be shared by MVEA and the District as part of the ratification and approval process. The teams were diligent, professional and collaborative throughout the time-efficient negotiations process. Both teams look forward to presenting the tentative agreement to their respective constituents and recommending unit member ratification and Governing Board approval.

Respectfully,

Dr. Ayindé Rudolph
Superintendent

Mick Newman
MVEA President
